

OUR SPECIAL FLAME RETARDANT MATTRESS is offered either as a homogeneous mattress or with a 3-part design, that prevents the possibility of door flaps or cameras in flame arrestors for example, being blocked.

SPECIAL FLAME RETARDANT PILLOW, available as an optional extra size 50 x 60 x 6 cm. It has the same properties as our Special Flame Retardant Mattress.

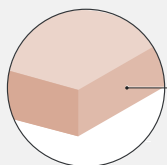

Special Flame Retardant Mattress

Our Special Flame Retardant Mattress, has been specifically developed for demanding environments with a greater risk of fire

The Special Flame Retardant Mattress reduces the risk of a fire occurring, whatever the cause. The mattress meets all fire safety standards known to us worldwide. The fabric is hard-wearing, durable, waterproof and easy to clean and disinfect.

- **MORE RESISTANT TO DAMAGE** thanks to its aramid composite fiber.

The foam core of 35 kg/m³ HR foam meets fire safety standard SS 876 00 10. Covers both mattress and pillow.

- **COMPLIES WITH FIRE SAFETY STANDARDS**
 - SS 876 00 10 test method NT-Fire 055
 - BS 6807:2006 Crib 7
 - FAR 25.853
